

Dallington Cycle Stand

Galvanised, Galvanised & Colour or Stainless

The VELOPA Dallington Cycle Stand is a shaped tubular cycle stand. The design allows the frame of the bicycle to be secured by the users own security lock. The Dallington Cycle Stand is suitable for securing two bicycles. The Dallington Cycle Stand is available in galvanised steel, Grade 304 and Grade 316 Stainless Steel, with raggedfeet for casting into new concrete or flanged feet for bolting to an existing surface.

The practical and durable nature of the VELOPA Dallington Cycle Stand stand ensures that the stand will complement any environment and offers an aesthetically pleasing alternative to the Sheffield Cycle Stand.

| Part Number | Description | Weight (kg) |
|-------------|---|-------------|
| 138 515 235 | Galvanised - Concrete In | 10kg |
| 138 515 230 | Galvanised - Bolt Down | 10kg |
